

# United States Committee on Irrigation and Drainage

## MEMBERSHIP INFORMATION

The United States Committee on Irrigation and Drainage (USCID) is a non-profit, professional society organized in 1952. The mission of the USCID is to promote progressive and sustainable irrigation, drainage and flood control practices in support of food and fiber production and public safety, recognizing that sustainability embodies economic, social and environmental goals.

### USCID PROVIDES THE FOLLOWING BENEFITS TO ITS MEMBERS:

- Networking with the National and International Irrigation and Drainage Community
- Forum for Exchange of Ideas and Experiences between Irrigation and Drainage Practitioners, Consultants, Researchers, and Policy Makers
- Continuing Education through Conferences and Workshops
- Source of Information for Innovations in Irrigation and Drainage Technologies and Practices
- Venue for Irrigation and Drainage Businesses to Promote their Products and Services
- Discounted Access to USCID Conferences and ICID Publications
- Study Tours of Irrigation and Drainage Systems
- Opportunities for Professional Publication

### MEMBERSHIP CATEGORIES
